

Changes in the ERA Secretariat

At the end of March, the ERA Secretariat said farewell to **Ajit Vaidya**, who had been a Technical Coordinator since November 2001. His responsibilities included the Paper, Print Process and Printing & Finishing Commissions and the Lists of Presses, and he also organised the “Gravure at your fingertips” basic seminars. However, Mr. Vaidya is still to be seen at numerous ERA meetings, as he now works for ERA Associate Member Rolf Meyer GmbH.
